Employment Experience

Senior Vice President, INTL FCStone Financial Inc., FCM Division

2010 – Present

Principal, Risk Management Incorporated *Acquired by FCStone in 2010*

1992 – 2010

- Became partner of Risk Management Incorporated, now part of INTL FCStone Financial Inc., FCM Division, in 1992. Since that time, he has been involved in every aspect of executing energy and commodity price risk management programs for the company's corporate and utility accounts.
- Instrumental in fostering and augmenting FCStone's market analysis and brokerage group and oversees all market-related functions for the energy business.
- Works directly with clients to determine the best energy purchasing/hedging strategy given market conditions, client's objectives, load requirements, regulatory restrictions, and client's procedural guidelines. He has significant practical experience in guiding energy organizations on the best application of risk management methodologies for their respective cultures and risk tolerances.
- Serves as lead on projects and on-going consulting arrangements. He advises on the construction of pricing guidelines and the application and proper utilization of pricing tools.
- Leads municipal risk management advisory projects regarding risk assessment, measurement and mitigation
- Presented risk management topics to the Illinois Commerce Commission and the City Council of San Antonio.
- Guest speaker on the topic of energy risk management for several associations, including the Association of Energy Engineers, Association of Professional Energy Consultants, Calumet Area Industrial Association, Florida Natural Gas Association, Midwest Cogeneration Association, Southern Gas Association, and Tennessee Gas Association.

Commodity Broker, Paine Webber

1989-1992

- Provided clients with market knowledge and execution of financial products with a focus on options.

Sales Rep, Futuresource

1987-1989

- Marketed commodity trading software to corporations.

Education

- Bachelor of Science Degree, Agricultural Economics - University of Illinois

Employment Experience

Senior Vice President, INTL FCStone Financial Inc., FCM Division

2010 – Present

Principal, Risk Management Incorporated *Acquired by FCStone in 2010*

2002 – 2010

- Joined Risk Management Incorporated (RMI), now part of INTL FCStone Financial Inc., FCM Division, in 2002 to expand and cultivate the company's risk management expertise and software solutions.
- Assists clients with expertise in utility asset valuation, energy derivative valuation, quantitative risk assessment, and credit analysis.
- Guides clients in hedging and trading electricity, coal, natural gas, and fuel oil.
- Heads the development of several online software solutions for the company, including the award-winning Know-Risk™ online commodity deal tracking and reporting application, which has been implemented to 100+ clients in several different countries and languages.
- Developed several other software solutions including Mark-It View™, a historical and forward price database application, Know-Risk Energy™, a physical energy supply contract management and reporting tool, and KnowRiskExchange™, a real-time electronic bid-offer platform for "one-off" transactions.

Senior VP Commodity Strategy, Westar Energy

1997 – 2002

- Managed risk for both energy and interest rate commodity portfolio. Annual notional value of portfolio exceeded \$2.5 billion per year.
- Developed trading/marketing and risk operation for fully integrated 6,000-Megawatt electric utility.
- Educated Board members including the CEO on risk management principles and techniques.
- Together with the Board and the CEO, developed enterprise wide objectives and goals and was responsible for implementation, measurement, and reporting of determined objectives and goals.
- Educated the Kansas Corporation Commission staff on general risk management principles as well as issues specific to the utility.
- Additionally served as President of the utility's power plant construction subsidiary that was responsible for building a combined cycle power plant.

Education

- Bachelor of Science Degree, Finance - University of Missouri
- Bachelor of Science Degree, Economics - University of Missouri
- Masters of Science Degree, Financial Markets - Illinois Institute of Technology
